

Moms raise their pups solo, hold hands with them while swimming to keep them from getting lost, and wrap them in kelp while they hunt.

They use rocks as tools to break open clams and mussels!

WE FEMALE OTTERS USE ROCKS MORE THAN MALES, YOU CAN TELL CUZ OUR TEETH ARE NIGER

Sea otters can stay submerged for five minutes, maybe more!

THE AVERAGE HUMAN CAN DO 30-60 SECS

They have the thickest fur of any animal. AND I KEEP IT PRISTINE, BABY.

Every square inch of fur is covered in a million hairs and their coat is double layered.

They eat a quarter of their body weight every day!

I'M A NORTHERN SEA OTTER & I WEIGH 100 LBS.

SO I NEED 25 LBS OF FOOD A DAY!

- CLAMS
- MUSSELS
- SEA URCHINS
- ABALONE
- CRABS
- FISH
- SNAILS
- OCTOPUS

Sea otters play, wrestle, slide, and bounce. Play teaches them survival skills.

GARY, GRAB THE MONOPOLY!

I'M TOO CUTE TO BE ENDANGERED

Some sea otter species are endangered! Yes, really! Help them by eating sustainable seafood, conserving water, avoiding pesticide and herbicide use, and keeping toxins out of storm drains!

Why Sea Otters are TOTALLY RAD
